

## Residential Price Book

At UrFibre we like to remove the complexity in the services that we offer, so you know exactly what you're paying for with no hidden charges. Our price book document includes the costs for our broadband services, any additional one-off fees and charges that may apply from time to time.

We will update our price book as we introduce new services. The fees and charges you pay may be subject to the specific prices of a special promotion that was included at the time that you place your order. All prices listed below are shown with (Gross) and without (Net) Vat.

### RESIDENTIAL 24 MONTH INTERNET SERVICE

The full speed on our higher Services will not be achievable by a single device over wireless connections within the client premises, and to achieve these speeds a wired connection is required.
